

DIRTY TALK

SECRETS

"MAGIC WORDS"
THAT MAKE HER CRAVE YOU

MICHAEL MANNING

TALKING DIRTY

INTRODUCTION

Even if you're enjoying a steady diet of sex, odds are good that you wish you had more.

If you're getting all the sex you want, you're probably always on the lookout for ways to make the sex your having better.

Even hotter than ever.

Even more amazing than the last time, right?

And why not? Everybody loves fucking! It's a universal constant.

We're hardwired to enjoy it, and men in particular, seem driven to always be looking for ways to up their game. To get better.

There are a lot of benefits to be had for improving your sexual game. If you're in a committed relationship, then your ability to continually surprise your partner and keep her satisfied will all but ensure that she will never stray, or even have the first thought of cheating on you.

If you're single and playing the field then at some point, as you continue to improve, your reputation will precede you, and you'll become an increasingly hot commodity as word gets out that you're a Sexual Rock Star. A Superstar in the Sack.

And word WILL get out.

Why?

They actually talk to each other about sex more than men do. They swap stories and compare notes, and once a woman confesses to her friends that you're a sexual badass, you can bet they're going to be curious.

They're going to want to have a little (or maybe even a big) taste for themselves, and of course, that works very much to your advantage.

There are all sorts of ways you can gain a reputation as a sexual badass. You can focus on learning to use your fingers to make a woman squirt when she cums. Even one who you JUST met. Even one who has never squirted before in her life.

TALKING DIRTY

Or maybe you'll dive in (pun intended) to the world of oral sex and learn to use your lips and tongue on a woman better than just about anyone. Good for you if you go this route, because once a woman has HAD great head, she's generally hooked on it.

This is a skill that is highly prized by women. If they find a man who knows how to go down on a woman – **he's a keeper. A rare prize indeed.**

Of course, you don't need to limit yourself to just one "special skill." You can collect as many of them as you like. As many of them as you'd care to learn.

The one skill in particular we're going to be talking about in THIS book is language. Having a way with words, both in and out of the bedroom.

In the pages that follow, I'm going to teach you everything I know about talking dirty, and the amazing, mind-blowing effect it can have on your sex life.

You may not believe this now, here at the start of this book, but the stuff I'm going to teach you...it's going to change your life. It's going to take your sex life, and all your sexual experiences to a whole new level.

I've dated hundreds of women. I've practiced my linguistic arts (and all my other "special skills" on all of them. I've seen the up-close-and-personal details of more female anatomy than a lot of gynecologists, and I'm here to tell you: Language rules all.

All those other tricks you can learn are valuable and important in their way, but if you want to kick your sex life into overdrive, learning to use language is THE way to do it.

I tell the women I date that I'm a "cunning linguist" with a sly wink and a smile. Some of them don't believe me at first, but they find out soon enough, and I'm going to share all my secrets with you. I'm going to let you have a good, long look inside MY bedroom and show you the things I do, so you can start doing them too, and reap all the same benefits.

Now, obviously, you can't write report like this without using explicit language. That is, after all, what this book is about. So if any of the following terms (fuck, cock, dick, pussy, ass, tits, whore, slut, cunt) offend you – close his report now.

**You'll see a lot of "dirty words" in the following pages
(and I may even invent a few new ones!)**

If you're cool with that, keep reading, and get ready to have your eyes opened to a whole new world of sexual possibilities.

TALKING DIRTY

CHAPTER 1: (ALMOST) ALL WOMEN LOVE IT!

In the introduction, I mentioned that I've dated tons of women. That wasn't a brag...just a way of letting you know that when I give you percentages, I'm not drawing my percentages from some time population sample, but from a pretty big one.

In other words, I'm not talking out of my ass here.

A lot of guys worry that women will think they're weird if they break into dirty talk in the bedroom. The reality is - out of all the women I've dated, there were exactly TWO that didn't like it. Two out of hundreds. That's such a tiny percentage that it's almost not even worth mentioning, and one of the two was a born-again Christian, who took offense to it for religious reasons.

That's not a knock against religious people...she was pure awesome, but it's just a note to let you know that there are some groups of people out there who won't like the idea of dirty/sexy talk, and if you try, they're going to shut you down, or just not respond to it. Those people, however, will be in the DISTINCT minority.

TALKING DIRTY

The rest? It's going to turn them the hell on, and that's a good thing. When I'm talking to my buddies, one of the jokes I sometimes make is that sex is a lot like pizza. Hot pizza is pure awesome, and cold pizza...well, it's still pretty decent.

In other words, it's kinda hard to have genuinely BAD sex. You almost have to make a conscious effort to have bad sex, but no matter how good the sex is, dirty talk can take it to the next level.

Make it even hotter than you ever imagined it could be. Giving both you AND your partner more pleasure than you ever thought possible.

Having said that (almost) all women like it though, the first thing to understand, before we get into specifics, is that every woman's preferences and tastes are different.

For instance, some women will get TOTALLY turned on by suggestive talk ("Can't wait till you get home tonight baby - I'm gonna take those panties you're wearing off with my teeth!"), but if you were to say, "yeah - suck my cock, you dirty little slut!" - they'd punch you in the nuts.

Other women love the really dirty talk in the bedroom, but balk at certain words. I dated a woman once who loved it when I called her my own, personal slut while slapping her ass, but she couldn't STAND the word "whore."

Some women like both. MOST women don't like the word "cunt." For a few (about one in twenty), it's a massive turn on.

I'm going to say two things about this. At first, it's going to sound like they are contradictory, but they're actually not.

The first thing is - Ask

Ask if there are any SPECIFIC WORDS your woman would balk at (the hot list would be bitch, cunt, whore, and slut) - it's mostly women with low self-esteem who shy away from slut/whore.

TALKING DIRTY

“Good girls,” who secretly wish they were bad girls though, will love those two words. Hearing them will essentially give them permission to BE a bad girl for a little while, and that’s when things can get AWESOME.

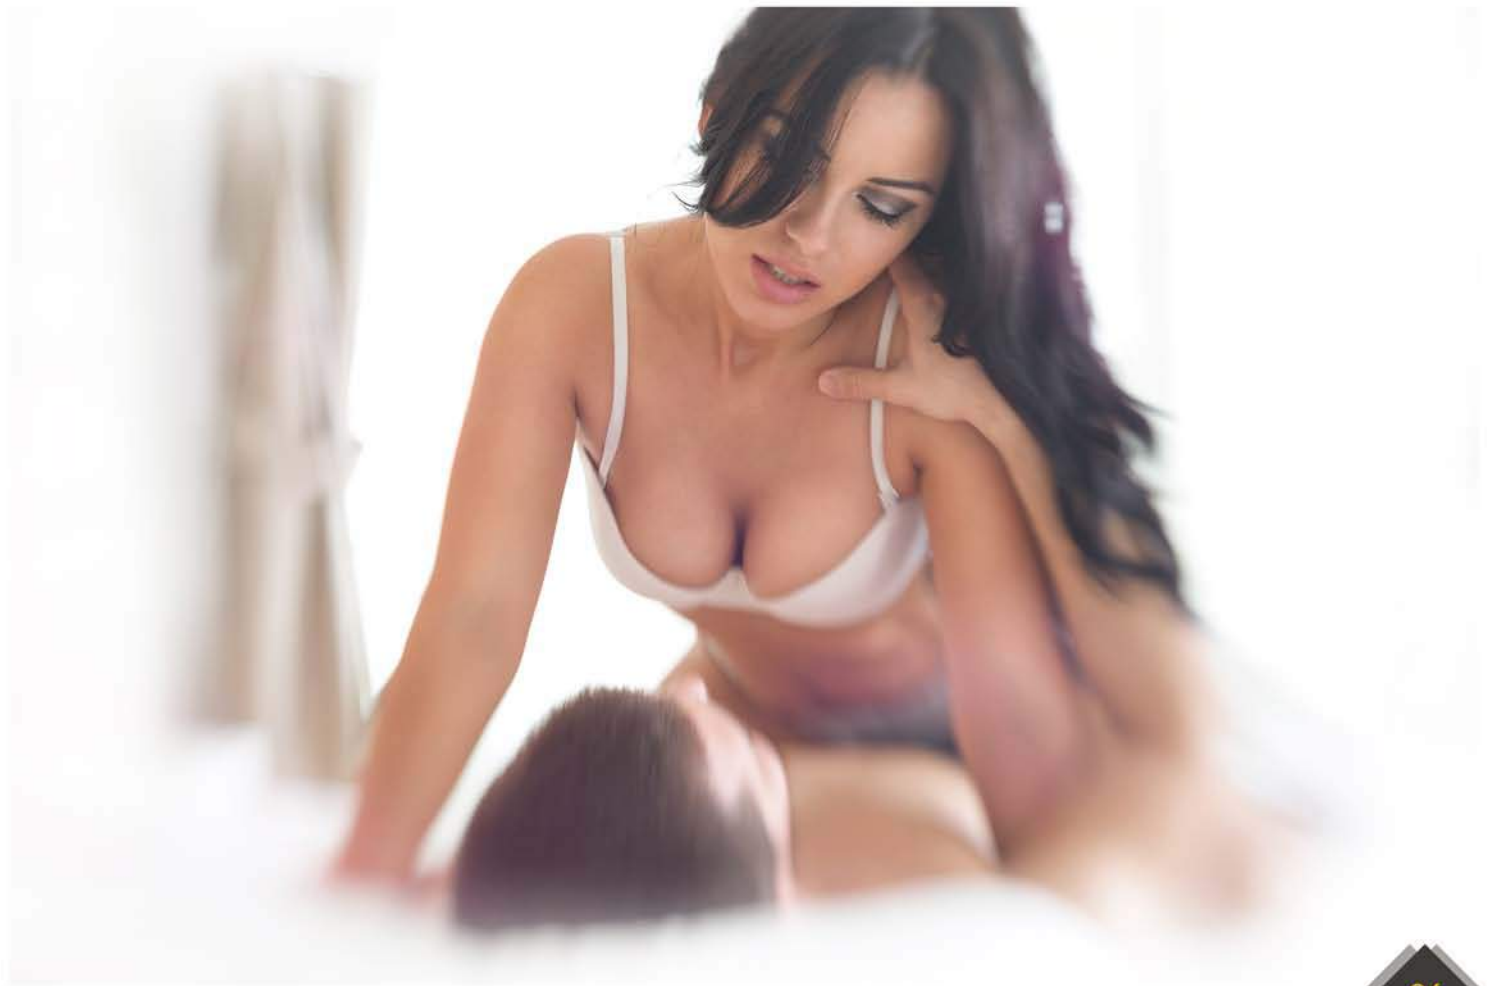

You get the full benefits of that, so enjoy the ride.

The second thing is – DON’T ask, just do!

What I mean here is, once you know the words that your partner absolutely does not like and does not get turned on by, you’ve got all the information you need. You don’t need to say, “honey, is it okay if I start talking dirty to you now, as long as I don’t use any of the words on the “no-fly” list?”

Armed with that information, just get in there and start doing it. If she’s not in the mood to hear it (which will almost never be the case), she’ll let you know and you can back away from it. Got it? Good!

Okay, so enough with the preliminaries, let’s get down to business and start teaching you HOW to talk dirty!

TALKING DIRTY

CHAPTER TWO: DIRTY TALK 101

Broadly speaking, dirty/sexy talk falls into three basic categories:

1. **Suggestive Flirtation**
2. **Foreplay (yes, language can be a part of foreplay!)**
3. **Actual sex talk (stuff you say while you're having sex)**

Think about when you HAVE sex for a second. Most of the time, you don't just rip each other's clothes off and go to it – there's usually some foreplay involved. Some kissing and touching to rev her up and get her super excited before you start thrusting.

Before that, there's probably some anticipation. You both KNOW that you'll be having sex later that night when you get off work, and so you wind up thinking about it a lot during the day. Foreplay hasn't actually started yet, but your MIND is already there. You're already in the mood and in the zone.

It's the same basic idea with language. You don't ALWAYS have to start slow (with basic flirtation) and work your way up, but you should understand the differences so you can mix and match.

Remember, the important thing is to **"understand your audience."** If the woman you're with doesn't care about all the light, flirty or suggestive stuff...if she likes the more hardcore stuff better, then you know you're safe to just skip ahead.

On the other hand, if she likes or appreciates a little warming up, well...now you know more about how to do that.

TALKING DIRTY

METHODS

I'll be giving you some specific examples later on (and have already given you a couple), but before we get into that, there's more you need to understand about the basic mechanics. Here, I'm talking about the simple reality that "language" is a lot more than just the words you speak to each other when you're in the same room. It also incorporates things like leaving naughty voicemails, emails, and texts. You could even say that sending your lover a naughty selfie is a form of language.

The point is, you're not limited by just using words when you're right in front of each other. If you have a hot, sexy evening planned, you can start planting the seeds to take it to the next level hours before you're face to face, simply by using language.

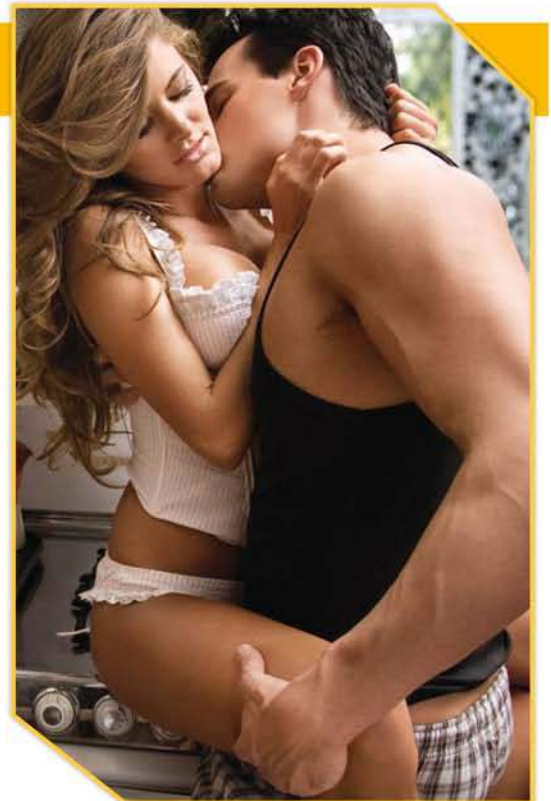

DELIVERY

Hand in hand with the different methods, before we get into the particulars, it's important to understand that delivery matters. Your sexy talk isn't going to "work" if your delivery is wrong.

Imagine saying this: "Baby, I want to fuck you senseless." In a dead, monotone, Ben Stein kind of voice. That's going to go over like a lead balloon (or, as I like to say, like a pregnant woman trying to pole vault!) – it's just not going to have any KICK.

What you want to do is, any time use these methods, and you're leaving a voicemail, or talking on the phone, or in person, you want to use the right tone of voice.

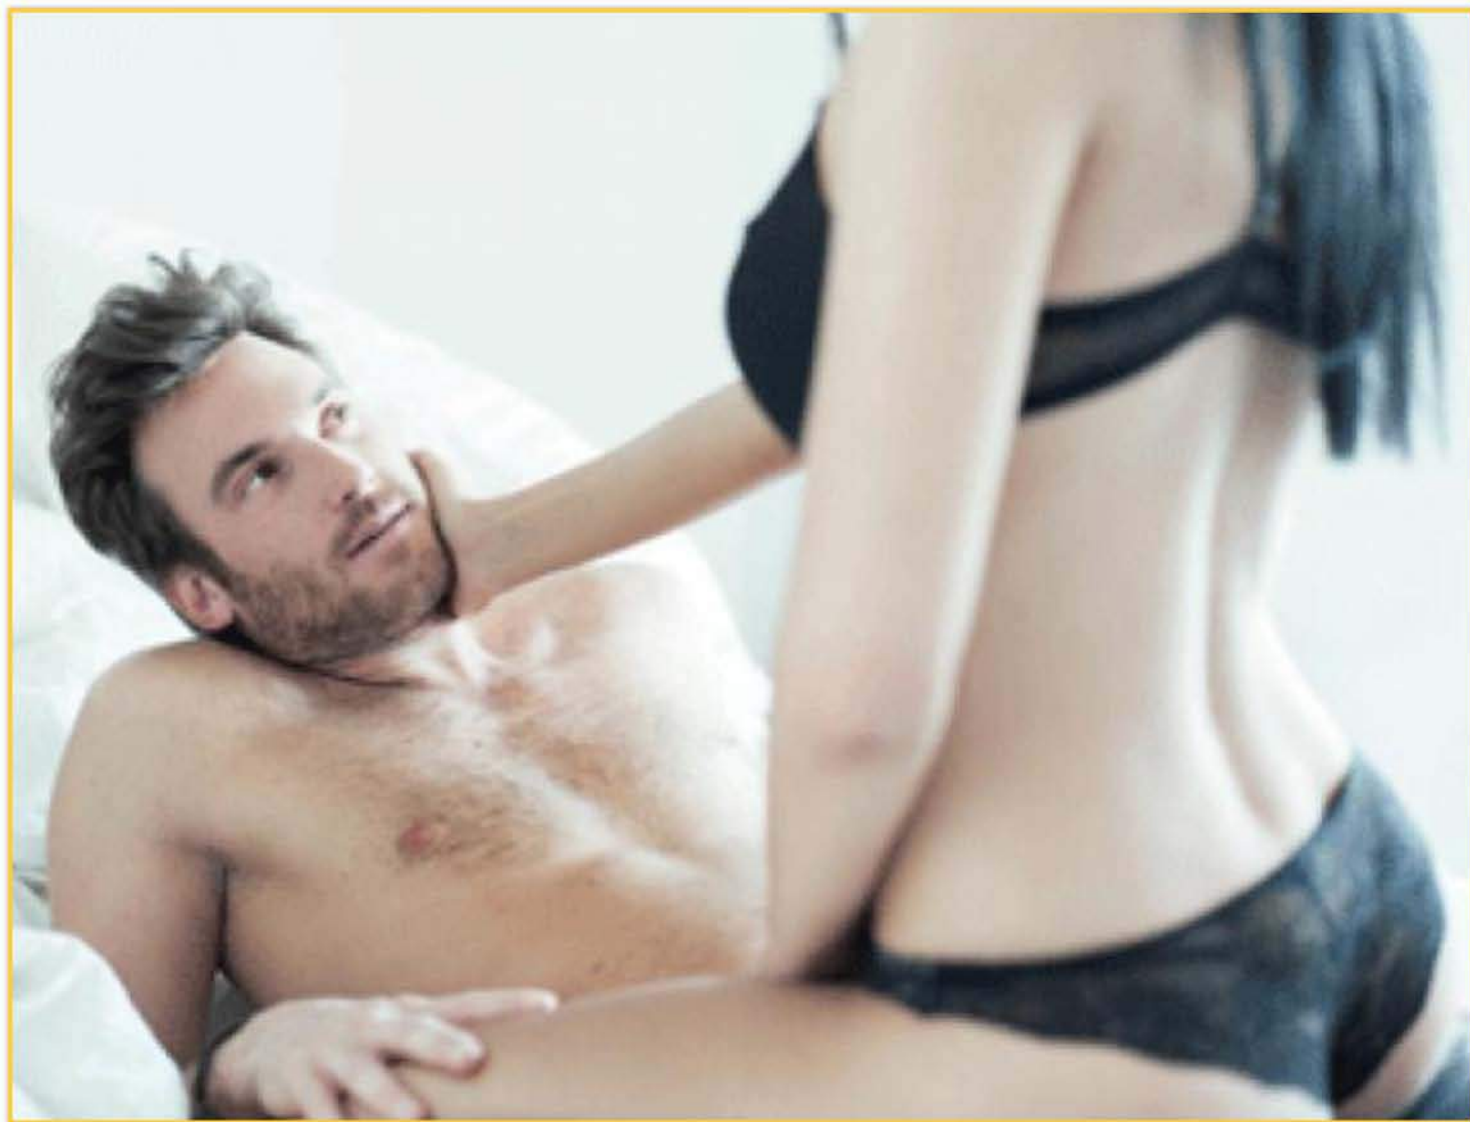

TALKING DIRTY

That tone of voice should be slightly deeper and lower than your “regular” voice (think of it as your “bedroom voice”), and have a growly, gravelly undertone to it. Insistent and commanding. Leaving no room for debate or negotiation.

Now, picture yourself saying this while your lover is on her knees:

**“That’s it, FUCK me!
Back that pussy onto my cock and show me how bad you want it!”**

Add in a slap to her ass while you’re saying it, not in the Ben Stein monotone, but in the tone I mentioned above.

TALKING DIRTY

See the difference? See how much more powerful? THAT is what takes sex from being good (or even great) to being mind-blowingly awesome...for both of you.

Bonus/Pro Tip:

Some guys, especially guys who feel REALLY awkward about using language in the bedroom, worry that they might fumble it when push comes to shove. There's a good, simple way around that.

Practice.

Now, I know what you're thinking, but no...I'm not talking about practicing with a woman. I know you're probably going to feel a little silly, but seriously, if you're worried about it, go into the bathroom, stand in front of the mirror and picture yourself fucking your woman.

What will you say to her?

SAY IT!

Look at yourself in the mirror and SAY exactly what you want to say to your woman.

No, don't look at the floor while you say it - look into your own eyes.

USE your "bedroom voice."

SAY IT LIKE YOU FUCKING MEAN IT!

(so you see what I did there? LOL - I just used a "command" on YOU!)

When you do that, pay close attention to the way the words SOUND coming out of you.

Does it sound stilted and forced or awkward?

If so, change the wording and say it aloud again.

Keep doing that until it sounds perfectly natural and confident.

TALKING DIRTY

See – when you just THINK a word or phrase, it's not the same. It sounds different than when you actually say it aloud.

That's how you know when you're ready.

When you can say the things you plan to say to your lover in the mirror while looking at yourself, and they sound natural, forceful, and confident.

Okay, so now that you've got a good understanding of exactly what we're talking about when we say "language" and some idea of how to do the delivery, let's get started on the particulars. We'll work from the flirtatious stuff to the hardcore stuff, in order, slowly getting more and more explicit and descriptive. Ready? Turn the page.

TALKING DIRTY

CHAPTER THREE: SUGGESTIVE FLIRTATION

This is the first “level” of sexual language. There are 2 basic times you want to use this.

1. when you're beginning to up your sex game and employing these strategies, as a way of easing her into hotter sex with you.
2. when you want to slowly work up towards more explicit talk, because you figure she'll appreciate some build up before the main event.

Here, your goal is to steer clear of explicit words (fuck, slut, whore, cunt, pussy, ass, tits, etc.) and say things that make her THINK about sex...but indirectly.

So how do you do that?

Well, the best way is to make compliments that have an undertone of sexuality to them.

Here are some examples:

Text message:

“Just wanted to say – WOW you looked hot in that skirt when you left for work this morning! I’ve been thinking about it ever since!”

Email:

“Eat a light lunch today – I’m planning on taking you out for a romantic dinner when you get home...and save room for dessert later! ;)”

Voicemail:

“I just wanted you to know that I almost made you late for work this morning...woke up about ten minutes before you did and you just looked soooo sexy laying there next to me...”

TALKING DIRTY

Now, I put “text,” “email,” and “voicemail” next to each of those as examples, but obviously you could use any of them as a text, email, or voicemail. Don’t think you have to follow these to the letter – if you and your lover never email each other and communicate mostly by text, then don’t send a message via a channel she’s not likely to even see.

Just do what you normally do, but you should at least vary it a little for the surprise factor, and if you’re worried she might not see your email, because you normally communicate via text, shoot her a text AFTER sending an email and just say, “oh – sent you an email a bit ago...”

The best part about suggestive flirtation is that if she’s into it, it will lead to back and forth flirtatious banter.

She’ll respond with something equally (or more) flirtatious, and you can respond back, etc., so all day long, you’ve got this running thread of sexual tension. There’s an undercurrent to your communication.

Plus, this is a really easy, natural way to slowly step up (escalate) to more explicit talking.

TALKING DIRTY

If she responds with something even more flirtatious than what you wrote, you can write back with something even more flirtatious than that, and so on, and before you know it, you're both **"talking dirty!"**

It's a great, perfectly natural way to escalate your use of more and more explicit language.

There's one other important thing to say about suggestive flirtation. Although you don't want to USE explicit language at this stage, a lot of communication is based on what you DON'T say.

Here's an example:

"Just wanted to say that I almost made you late for work this morning. I woke up about ten minutes before you did, and GOD you looked hot. Made me want to roll you over and..."
See what I did there?

The dot, dot, dot IMPLIED all the explicit, sexy stuff I could have said, but intentionally didn't. When she READS that note later, you can bet that her imagination is going to fill in the "dot, dot, dot" with something super-hot and sexy!

So you can say some incredibly hot, sexy things without using ANY explicit language, just by hinting at, or implying certain things, and leaving the rest to her imagination.

Don't be surprised though, if she writes you back with some pretty explicit details about what might have been hiding behind that "dot, dot, dot," or asking you for more explicit details, and that's a **GOOD thing!**

Flirtation is easy. It's fun. And it can put you both in the mood for a hot time later that night. If you're not making regular use of it, you should. Starting today. **You'll be amazed at the difference these simple tricks can make!**

TALKING DIRTY

CHAPTER FOUR: FOREPLAY

This is a notable “step up” from simple flirtation. At this point, you’re going to start getting A LOT more explicit and detailed in the messages you send, or the things you say.

There are two big things that sets foreplay apart from flirtation. First, as mentioned, is the fact that foreplay is a lot more explicit, but second, is the fact that you can start issuing **COMMANDS** as part of foreplay.

Here’s an example:

You: “Wish you were already home – When you GET home, I’m not even going to bother to undress you. I think I’m just gonna kiss you, bend you over the sofa, lift your skirt, shove your panties out of the way and stick my tongue as deep into your pussy as I can!”

Her Reply: “Oh GOD! That sounds hot – I’ll be home in an hour!”

You Again: “Before you leave the office, I want you to go into the bathroom for me...touch your pussy and imagine me, sneaking in there with you and giving it a good licking”

Obviously, this is another one of those cases where it pays to “understand your audience.” If your lover is pretty shy, and you know she’d never in a million years do something like that, don’t bother making the “command.”

But if you’re not sure, you’re better off saying it and seeing how she responds. MOST women will do stuff like this for you if they know it turns you on. In my experience, **more than 90% of them will, and those are pretty good odds!**

The bottom line is: “When in doubt, try it out!”

There are all sorts of different directions you can take this. The only limits are what you’re willing to say/do, what you’re willing to ask for by way of “commands,” and your imagination.

TALKING DIRTY

Here's another example that involves YOU this time:

You: "Sitting here at work, thinking of you and secretly rubbing my cock. Hope no one is watching!"

Her Reply: "HOT! ...and what are you thinking about, exactly?"

You Again: "I'm imagining getting home, taking a shower together, throwing you on the bed and licking every drop of water off of that sexy body of yours."

Her Reply: "Oh GOD...now you have me wanting to touch myself..."

You Again: "Do it for me...while I'm sitting here rubbing my cock, I want you to pinch your own nipple, then slip one of your hands down between your legs, and rub for me while you're thinking about tonight..."

Her Reply(several minute delay): "DAMN! I had to sneak off to the bathroom to make myself cum...can't wait to see you tonight!"

Let me ask you this: When she gets home later, how do you think the evening is going to go? Do you think it's going to be another hum-drum night of TV dinners and watching TV together on the couch?

Probably not. It's probably going to turn into one of the hottest, sexiest encounters the two of you have ever had. **That's what you want, right?**

THAT is the power of foreplay language, my friend.

You get her so excited...so totally turned on before you ever lay eyes on her...before you ever touch her, that she's totally ready for you by the time she gets there.

And then of course, once she IS there, you keep the heat on by using language in the bedroom, which is the next (and longest) chapter.

TALKING DIRTY

CHAPTER FIVE: BEDROOM TALK

This is where things get their most intense. This is also where your “delivery” is more important than ever. No more emails, texting, or sexting. It’s you and your lover, naked on the bed, using the spoken word to take the sex to the next level of intensity.

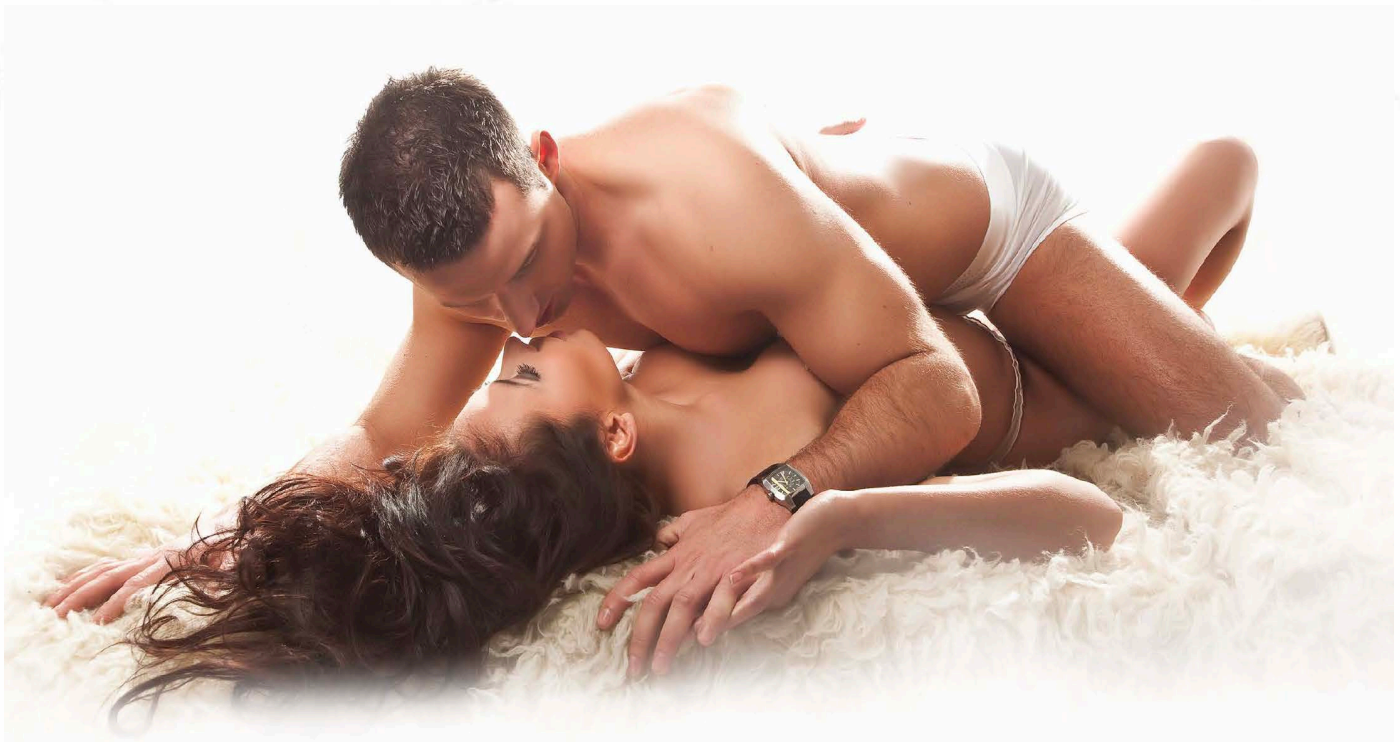

It’s important to understand here, that language by itself at this stage isn’t enough. It’s like the salt and other spices you put on the food. It just makes it TASTE better. Same thing here.

Imagine two scenes. Picture them in your mind as you read them. **Here’s the first one:**

You undress your lover slowly, just the way she likes it, kissing her breasts...sucking on her nipples while you’re sliding her panties down her long, sexy legs.

Her hands go to the back of your head, pushing you against her tits as your fingers drift up her legs to gently tease her pussy lips apart.

She’s already wet.

TALKING DIRTY

You lay her back on the bed. Spread her legs and kneel between them, teasing her inner thighs with the tip of your tongue.

She starts moaning. Her hips start grinding...thrusting up toward you. You KNOW how bad she wants to feel your tongue on her pussy, but you keep teasing, slowly working closer to it, but not quite...not quite....

Her hips grind harder. She grabs the back of your head, trying to FORCE your mouth onto her pussy, but you resist, still taking your sweet time....

Eventually, your mouth descends on her, and you thrust two fingers inside. She's bucking against your face like a wildcat, and it only takes a moment for her to cum for you.

Then, you guide her onto her knees, and thrust your hard, throbbing cock inside....
That's pretty hot, right?

I mean – if that's you in that little scene, you can bet you're having a pretty good time, but now, let's try again, only we'll insert strong, sexual language into the scene, delivered in your gruff, gravelly, commanding "bedroom voice" and see how it's different.

Here goes (and note: This example is from my own bedroom – **thanks Cindy! I had a GREAT time too!**)

You pull her toward you, but before you start to undress her, you cup her breasts in your hands. "Show me what you've got hiding under this blouse." You command, looking into her eyes.

She starts unbuttoning her blouse, and when it falls open, you unclasp her bra, revealing those perfect tits.

"Feed me." You tell her. "Take one...whichever one you want, into your hands and guide it into my mouth for me."

She does, gasping as your lips start working their magic. All the while, your hands are busy, slowly sliding her panties down her long, sexy legs.

She lets go of her breast and her hands go to the back of your head, pushing you against her tits as your fingers drift up her legs to gently tease her pussy lips apart.

"And what do you have for me down here?" You ask as you open her up, feeling her wetness. "Mmm....already wet. I think I might just have to taste some of that."

TALKING DIRTY

"Yes." She moans, throwing her head back.

You lay her back on the bed. Spread her legs and kneel between them.

Before you actually start kissing the insides of her thighs though, you smile and say:

"Wow...that's fucking beautiful. I'm glad I saved room for dessert...I'm going to FEAST on that pussy in just a little bit, but first...I'm going to tease you. I'm going to get you so excited that you're BEGGING me to eat that pussy, and I'm going to make you cum harder than you ever have in your life...then, while you're STILL cumming, I'm going to put you on your knees and fuck your brains out."

She moans again, and you start kissing, teasing her inner thighs with the tip of your tongue.

Before long, her hips start grinding up toward you. You KNOW how bad she wants to feel your tongue on her pussy, but you keep teasing, slowly working closer to it, but not quite...not quite....

"Ask me." You tell her. "BEG me to eat that pussy."

"Yes." She says.

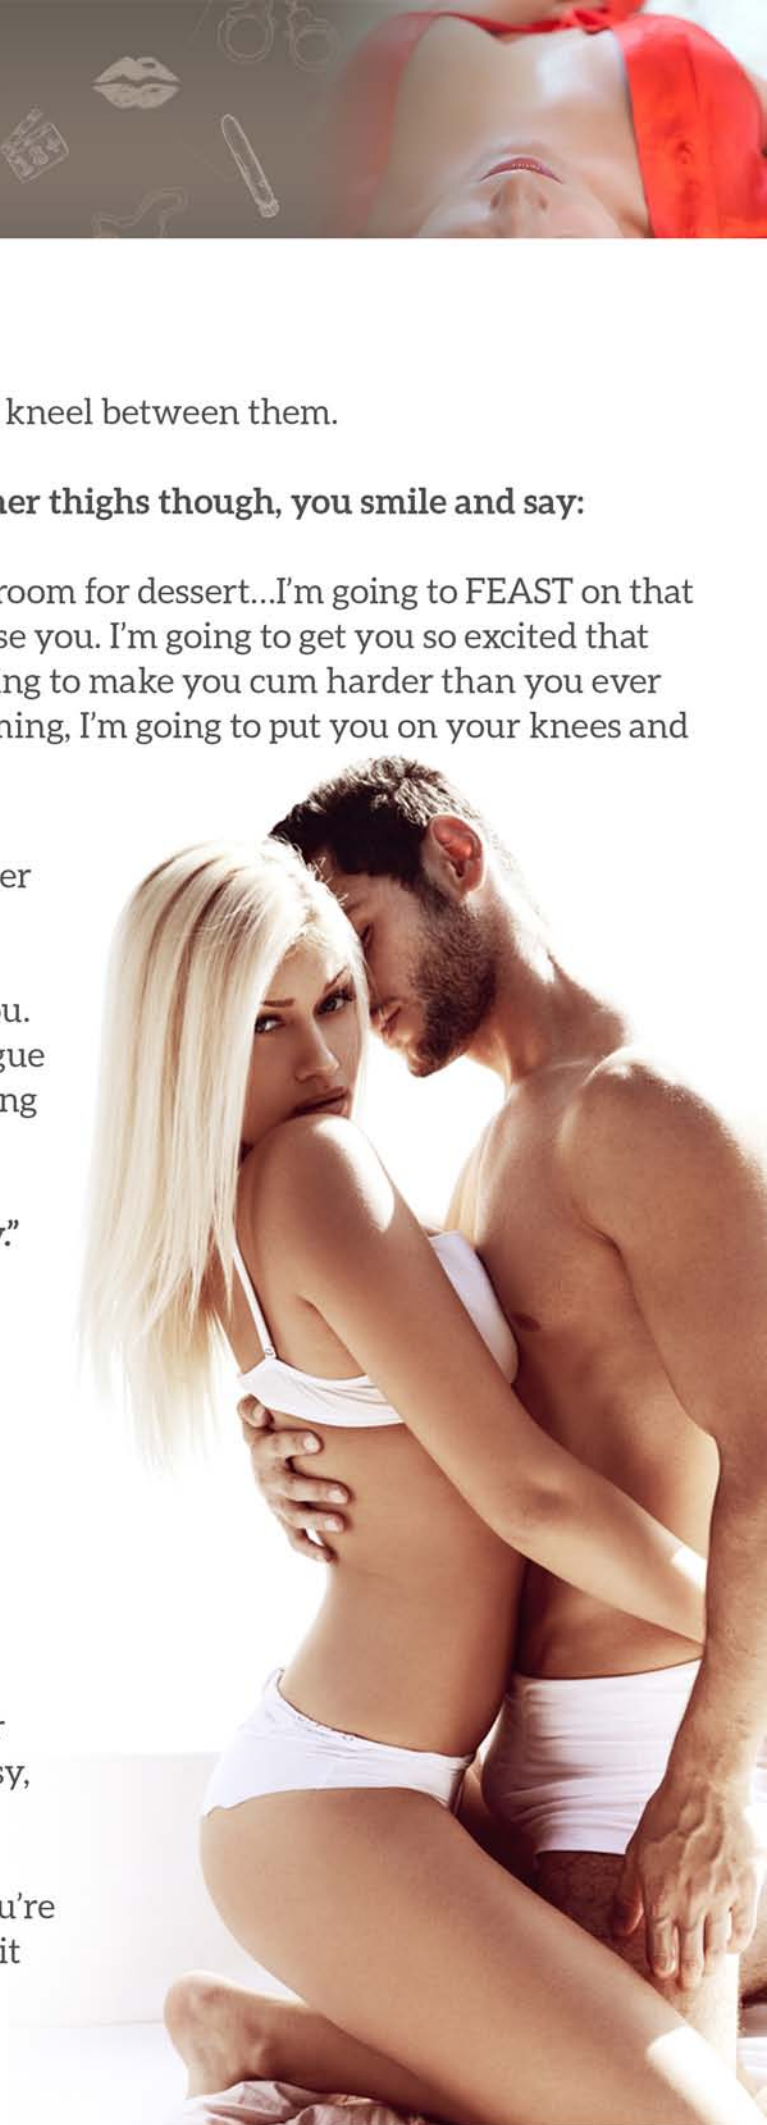

"Yes...what?"

"I want it..."

"What do you want?"

"Eat me...I want you to eat my pussy...PLEASE!"
Her hips grind harder. She grabs the back of your head, trying to FORCE your mouth onto her pussy, but you resist, still taking your sweet time....

"Soon, but not yet." You tell her. "I don't think you're quite excited enough yet. I don't think you want it bad enough yet." So you keep playing....

TALKING DIRTY

Eventually, your mouth descends on her, and you thrust two fingers inside. She's bucking against your face like a wildcat, and by now, she's so turned on that she cums on your face almost as soon as your tongue touches her clit, but you don't stop.

You keep licking and sucking until she's begging for you to stop and begging you not to at the same time, and while you're doing that, you're talking INTO her pussy, saying, **"Yes...that's it...come on...cum for me again...all over my face...let me feel it...let me taste it!"**

Then, while she's still shivering and trembling, you stop, guide her to her knees exactly like you said you would, and thrust every inch of your cock into her, grabbing a handful of her hair and pulling her head back as you thrust inside.

She actually hasn't stopped cumming yet from when you were using your mouth on her, and she immediately starts cumming AGAIN when you do this.

"That's it!" You tell her. "Fuck me! Fuck this cock. Show me how bad you want it – thrust back against me, NOW! Show me what a good little slut you are!"

You smack her ass as she starts bucking back against you – at this point, she's totally out of control and doesn't know if she's "cumming" or going – all she knows is, she needs every inch of your cock as deep inside her as she can get it.

You lose count of how many times she cums for you, but as she continues pushing her hips back against you to take you deeper, you keep talking.

"Yes – show me....such a perfect Lady in public, but my own, personal dirty little slut in bed – you NEED it, don't you? You need to feel my cum shooting deep into that tight little pussy."

"Yes!" She gasps. "I need it – cum inside me...cum inside me PLEASE!"

"Oh, I will." You tell her. "And after I do, I'm going to pull out of you and thrust every inch of my still hard cock down your throat. I want to watch you lick your cum and mine off my cock, and I want you looking into my eyes as you do."

Of course, by now, you're probably pretty close to cumming yourself, and when you do, again, you do exactly what you said, grabbing a handful of her hair as she takes you into her mouth and looks up at you, wondering who the fuck you are and what you did with the guy she's used to being in bed with, but too excited to care!

Now honestly, wasn't that WAY hotter than the first scene?

TALKING DIRTY

Hell yes it was, and the difference was the voice. The words you used while you were fucking her. You totally changed the game. You made it so much more intense, so much BETTER than it would have been without the words.

So let's break the scene down to better understand the different parts and EXACTLY what's going on here:

The first thing you did was issue a couple of "commands"

"Show me what you've got hiding under that blouse."

And, "Feed me."

This is stuff you've done before, with the foreplay. The reason this works is because in bed, MOST women (honestly, the overwhelming majority of women) WANT you to be the caveman. They want you to be the archetypical, dominant man.

Now, this is not the same KIND of dominance as you see in a BDSM relationship. If that's your thing, great, but this is simply being an Alpha. This is simply you taking control of things in the bedroom. Setting the tone and the tempo.

That's what almost all women actually want, even if they won't actually say it. I'm speaking from experience here. I'm speaking from the perspective of having dated hundreds of women and taken them to bed.

Sure, you'll find a few (maybe one in twenty) that genuinely prefer the slow, gentle lovemaking stuff, and at some point ALL women want this, but most women, most of the time, when they're hot and horny, they just want you to fuck them.

To take charge...to take control...and take THEM.

YOU being the man gives them the space, and the unspoken permission to be the woman. To be pursued, caught and ravished.

This is something that is hardwired into us. It's part of our genetic heritage. You're simply playing TO that heritage by tapping into the sexual archetype, and she's GOING TO respond to it. If you lead her there, she's going to follow...willingly. And you'll both have a great time because of it.
